

HATCHERY SANITISER

**BROAD SPECTRUM DEFRA-APPROVED DISINFECTANT
AND ALKALINE FOAM DETERGENT**

- For the control of surface and airborne pathogens
- Suitable for use in a wide range of applications including the hatchery and food processing sectors
- Application via foaming, spraying, misting or dipping
- DEFRA Approved for General Orders

RECOMMENDED USAGE

A broad-spectrum biocide suitable for use in a wide range of applications including hatchery and food processing sectors. Suitable for application by foaming, spraying or misting.

APPLICATION:

For spraying: Prepare a 1% (1:100 solution) in water and apply at the rate of 300ml/m² onto pre-cleaned surfaces using a low pressure spray.

For foaming: Prepare a 3% (1:33) solution in water and apply at the rate of 150ml/m² onto pre-cleaned surface using a foaming lance.

Setters, egg stores with eggs: Prepare a 1%(1:100) solution in water and mist for 10 seconds per 3m², ensuring the surfaces of eggs and equipment are wet.

Egg dipping: Prepare a 1:100 solution at approx 40°C, and dip hatching eggs for 3 minutes.

Can also be used for FOOT DIPPING and WHEEL WASHING at a dilution 0.3 - 1%.

Storage: Store in a cool, dry place. Keep tightly closed in original container. Protect from frost.

Pack Size: 25, 200 & 1000 litre

Shelf Life: 2 years from date of manufacture
